WORK EXPERIENCE

Simplevia Technologies Inc

Full-stack Developer Intern

November 2024 - February 2025

- Effectively managed front-end and back-end integrations through the implementation of middleware frameworks.
- Utilized troubleshooting skills to identify and resolve errors in source code, resulting in the development of useful solutions.
- Maintained and updated software components by efficiently managing libraries and dependencies.
- Employed version control best practices by utilizing GitHub to track changes in source code.
- Compiled and analyzed data to create informative reports, providing actionable insights to stakeholders.

Quality Assurance Intern

November 2024 - February 2025

- Played a pivotal role in testing the system's functionality, resulting in a 30% reduction in defects and seamless integration and performance.
- Proactively reported 250+ bugs and issues, facilitating prompt resolution and minimizing downtime by 40%.
- Served as a super admin, effectively managing 10,000+ user requests within the system, and making informed decisions to optimize system efficiency by 25%.
- Collaborated closely with front-end developers to verify 500+ setting changes, ensuring a cohesive and user-friendly experience with a 99% customer satisfaction rate.

EDUCATION

New Era Univeristy

Bachelor of Science in Information Technology (IT)

2019 - 2025

PROJECTS

DormLanders: Android-based Dormitory Reservation System

2024 - 2025

DormLanders is an Android-based application designed to streamline the process of dormitory searching, reservation, and management for New Era University students and dormitory owners. It offers a centralized, user-friendly platform where students can easily find available dorms, make reservations, and receive real-time updates, while dorm owners can manage listings, view reservations, and communicate with potential tenants.

Clash-of-Counters

2023

Clash of Counters is a fun and fast-paced educational gaming application that offers a captivating experience for users of all ages. The game is designed to sharpen your arithmetic skills through a series of progressively challenging exercises in addition, subtraction, and multiplication.
